

# ANNOUNCEMENT

---

On December 18, 2015, Congress passed important legislation which includes the suspension of the 2.3% medical device excise tax. President Obama signed the bill (the PATH ACT) into law the same day. The medical device excise tax is postponed on sales from January 1, 2016 – December 31, 2017. While the medical device tax has not been repealed this new legislation is an important first step. The 2.3% medical device tax will be removed from your invoices as of January 1, 2016.
